

MINC-11

Book 8: MINC System Index

November 1978

Book 8 contains one index to the MINC system and an alphabetical error message summary.

Order Number AA-D576A-TC

MINC-11

PART 2 SYSTEM INDEX

INTRODUCTION	20
MINC SYSTEM INDEX	21

PART 1
ERROR MESSAGE
COMPENDIUM

INTRODUCTION

This part of Book 8 contains a compendium of the error messages produced by the MINC system. The error messages are listed alphabetically for quick reference.

Each of MINC's error messages begins with a special classifier that identifies the source of the error within the MINC system. Following that classifier is an indicator that describes the severity of the error. MINC errors can have severity F, indicating a fatal error, or severity W, indicating a warning message. Following the severity indicator, the text of the message is given. As an example of a MINC error message, consider the following:

The Form of the Error Message

```
EDITOR-F-Unable to size screen
```

In this message, the classifier, `EDITOR`, identifies the source of the error. The severity indicator, `F`, identifies a fatal error. The text of the message is 'Unable to size screen'.

MINC error messages are sometimes followed by a locator that tells you what line in your program caused the error. For example:

```
MINC-F-Bad row specification at line 25
```

The locator tells you that line 25 of your program caused the error message.

Interpreting an Error Message

Most MINC error messages are fairly self-explanatory. By reading the message and examining the line referenced, you can usually determine the cause of the error. However, if you are not able to quickly resolve the source of an error, you can get help by looking up the error message in this compendium.

Looking Up an Error Message

This book lists the error messages alphabetically. When you look up a message, be careful to take into account the severity indicator, because the error message's place in this compendium depends on its severity indicator. Within a given classification, error messages with severity F are listed first; then error messages with severity W are listed.

Following each message, this book gives you some directions about how to proceed. In some cases, you are given a reference to a book. For example:

EDITOR-F-Unable to size screen
Book 3, see: EDIT

To learn more about this error, look up the term EDIT in Book 3.

In other cases, you are given a brief diagnosis of the possible source of the error and a procedure to try to correct it. For example:

KMON-F-Overlay read error
Indicates serious disk corruption; try a new diskette. If the problems persist, notify the MINC Product Service Center.

To reach the MINC Product Service Center, Massachusetts customers should call 1-800-762-9700; customers in the rest of the continental United States should call 1-800-225-9366.

Unlisted Error Messages

Only the errors that can occur in normal operation are listed in this book. Sometimes, hardware failures or unusual conditions will produce other errors.

If you get an error message and do not find it in this compendium, try the following procedure:

1. Check that the diskette drives are properly loaded and that the diskette drive doors are closed.
2. Repeat the instructions you gave MINC just before the error message was produced.
3. If the error message is produced again, notify the MINC Product Service Center.

LISTED ERROR MESSAGES

BOOT-F-I/O error
System diskette probably bad; make new copy.

BOOT ERROR MESSAGES

BOOT-F-No boot on volume
Book 3, see: Starting Procedures
Book 2, see: MINC Volumes

DIR-F-Error reading directory
Book 3, see: DIRECTORY

DIR ERROR MESSAGES

DIR-F-Illegal device
Book 3, see: File Specifications

DIR-F-Illegal directory
Book 3, see: DIRECTORY

DIR-F-Output file full
Book 3, see: DIRECTORY

DIR-F-Write error
Device detected an error in writing; check diskette drive and try again.

EDITOR-F-Cannot find input file on specified or default volume
Book 3, see: EDIT

EDITOR ERROR MESSAGES

EDITOR-F-Cannot proceed; owner is 'DIGITAL' for output volume
Book 1, see: Making a Demonstration Diskette

EDITOR-F-No output volume space large enough to EDI input file
Book 3, see: EDIT

MINC SYSTEM INDEX

EDITOR-F-Non directory device illegal for output
Book 3, see: File Specifications

EDITOR-F-Output volume has maximum number of files or no free blocks
Book 3, see: CREATE, EDIT

EDITOR-F-Unable to check volume owner
Detected an error in reading; check diskette drive and try again.

EDITOR-F-Unable to size screen
Book 3, see: EDIT

EDITOR-W-Abort edit session losing all edits (Y,N)?
Book 2, see: Control Characters and the Keypad Editor.

EDITOR-W-I/O error; check diskette drives and message manuals
The file contains a bad block; see Book 3 for a discussion of bad blocks.

EDITOR-W-Limited space for insertions (only xxx blocks). Continue (Y or N)?
Book 3, see: CREATE, EDIT

EDITOR-W-Output file name is already in use.
Do you want to erase its current contents (Y or N)?
Book 2, see: The Three Editing Commands

FORMAT-F-Device error
Indicates serious disk corruption; try a new diskette. If the problems persist,
notify the MINC Product Service Center.

HELP ERROR MESSAGES

HELP-F-File not found HELP.TXT
Book 3, see: HELP

HELP-F-Help not available for xxxxx
Book 3, see: HELP

HELP-F-Syntax error in command, type HELP <ret>
Book 3, see: HELP

HELP-W-Help not available for subtopic xxxxx
Help topic is invalid; type HELP to determine valid topics.

HELP-W-Help not available for subtopic item xxxxxx
Help topic is invalid; type HELP to determine valid topics.

KMON ERROR MESSAGES

KMON-F-Bad Fetch
Indicates serious disk corruption; try a new diskette. If the problems persist,
notify the MINC Product Service Center.

KMON-F-Command file I/O error
Indicates serious disk corruption; try a new diskette. If the problems persist,
notify the MINC Product Service Center.

KMON-F-Command file not found

Indicates serious disk corruption; try a new diskette. If the problems persist, notify the MINC Product Service Center.

KMON-F-File not found

Indicates serious disk corruption; try a new diskette. If the problems persist, notify the MINC Product Service Center.

KMON-F-Handler file I/O error

Indicates serious disk corruption; try a new diskette. If the problems persist, notify the MINC Product Service Center.

KMON-F-Overlay read error

Indicates serious disk corruption; try a new diskette. If the problems persist, notify the MINC Product Service Center.

KMON-W-Illegal date

Book 3, see: DATE

KMON-W-Illegal time

Book 3, see: TIME

MINC-F-An earlier statement already defined the function

Book 2, see: User-Defined Functions

Book 3, see: DEF

MINC-F-Another transfer is in progress for the array specified

Book 6, see: AIN, AOUT, DIN, DOUT

MINC-F-Another virtual array is using the channel

Book 3, see: DIM

MINC-F-Arguments in definition do not match function called

Book 3, see: ASC, ATN, BIN, CHR\$, COS, INT, LEN, OCT, POS, SEG\$, SGN, SQR, STR\$, TAB, TRM\$, TTYSET, VAL

MINC-F-Argument outside terminal scrolling limits

Book 4, see: ROLL_AREA

MINC-F-Array has invalid description

Book 3, see: COMMON, DIM

MINC-F-Array length is too small

Book 4, see: DUAL_MOVE, GRAPH

MINC-F-Array overfills workspace

Book 3, see: Arrays, DIM, LENGTH

MINC-F-Array subscript negative or too large

Book 2, see: Nested Loops, Subscripts

Book 3, see: Arrays

MINC ERROR MESSAGES

MINC SYSTEM INDEX

MINC-F-Arrays must be as large as number of points requested
Book 6, see: FFT, POWER

MINC-F-Bad column specification
Book 4, see: BOX, GET_CURSOR, MOVE_CURSOR, HTEXT, PUT_SYMBOL, TEXT_LINE, VTEXT

MINC-F-Bad row specification
Book 4, see: BOX, GET_CURSOR, MOVE_CURSOR, HTEXT, PUT_SYMBOL, TEXT_LINE, VTEXT

MINC-F-CALL fails; workspace too full for parameters
Book 3, see: Routines

MINC-F-COMMON variables not in same order as in last program
Book 2, see: Preserving Values of Variables in a Chain
Book 3, see: CHAIN, COMMON

MINC-F-COP requires 2 file names
Book 3, see: COPY

MINC-F-Can't be in double strip-chart mode when using this routine
Book 4, see: POINT

MINC-F-Can't call REGION when in strip-chart (move) mode
Book 4, see: REGION

MINC-F-Can't display vertical lines in strip-chart (move) mode
Book 4, see: GRAPH

MINC-F-Can't turn on graph that's not in use
Book 4, see: VIEW

MINC-F-Cannot erase a currently unused graph
Book 4, see: ERASE_GRAPH

MINC-F-Cannot find routine named
Book 3, see: CALL

MINC-F-Cannot get cursor position from terminal
Book 4, see: GET_CURSOR

MINC-F-Cannot set gain with no preamp connected to channel xx
Book 6, see: SET_GAIN

MINC-F-Channel or unit xx not in system for the routine
Book 6, see: AIN, AIN_HIST, AIN_SUM, AOUT, CIN, COUT, DIN, DIN_EVENT, DIN_MASK, DOUT, DOUT_MASK, FFT, MAKE_TIME, SCHEDULE, START_TIME, SET_GAIN, SET_LINE, TEST_LINE

MINC-F-Check the manual; DUP cannot accept any file name
Book 3, see: DUPLICATE

MINC-F-Clock too fast for system to respond
 Book 6, see: AOUT, PST_HIST, TIME_HIST, WAIT_FOR_DATA

MINC-F-Conflict over control of the IEEE bus
 Book 5, see: DISABLE_REMOTE, ENABLE_REMOTE,
 IEEE_BUS_CLEAR

MINC-F-Continuous transfer not in progress for array specified
 Book 6, see: CONTINUE, TERMINATE, WAIT_FOR_DATA

MINC-F-Could not find service subroutine xx requested
 Book 5, see: SRQ_SUBROUTINE
 Book 6, see: CONTINUE, SCHEDULE, SCHMITT

MINC-F-DATA value or value from file does not match variable
 Book 2, see: READ and DATA Statements
 Book 3, see: DATA, READ

MINC-F-Data lost—transfer rate too high
 Book 6, see: AIN, AIN_HIST, AIN_SUM, AOUT, CIN, DIN,
 WAIT_FOR_DATA

MINC-F-Data transfer or pending service request terminated
 Book 6, see: Error Detection

MINC-F-Data-name array is shorter than sweep length requested
 Book 6, see: AIN, AIN_SUM, AOUT, DIN, DOUT

MINC-F-Distance must be specified if X is omitted
 Book 4, see: DUAL_MOVE

MINC-F-Earlier array description differs from reference
 Book 3, see: DIM

MINC-F-END statement does not have highest number in program
 Book 3, see: END

MINC-F-EOF error in compiled program; use program stored with SAVE
 The file produced by the COMPILE command contains a format error; use a
 copy of the program created by a SAVE or REPLACE command.

MINC-F-Error in compiled program; use program stored with SAVE
 The file produced by the COMPILE command contains a format error; use a
 copy of the program created by a SAVE or REPLACE command.

MINC-F-Existing display conflicts with display requested
 Book 6, see: AIN_HIST, PST_HIST, TIME_HIST

MINC-F-Fewer than 8 points requested
 Book 6, see: FFT

MINC-F-File channel input or output error
 Accessing data in a file produced an error; check diskette and diskette drive.

MINC SYSTEM INDEX

MINC-F-File channel is not in the range 1-12

Book 3, see: CLOSE

MINC-F-File name in use; REPLACE or change name or volume

Book 2, see: Program Files, The REPLACE Command

Book 3, see: REPLACE, SAVE

MINC-F-File space allocated on volume is too small

Book 3, see: COMPILE, OPEN, PRINT, PRINT USING

MINC-F-First argument must be smaller than second

Book 4, see: ROLL_AREA

MINC-F-GOSUB fails; 20 routines already active

Book 3, see: GOSUB, ON, RETURN

MINC-F-Graph number of zero not allowed here

Book 4, see: BARGRAPH, GRAPH, GRID, HLINE, MAP_TO_TEXT, POINT, VLINE

MINC-F-Graph number must be zero when DUAL_MOVE has been used

Book 4, see: ERASE_GRAPH

MINC-F-Graphics routine attempted to interrupt a real-time display

Lab module routine in display mode is using the screen; use DISPLAY_CLEAR to clear screen.

MINC-F-Graphics routine terminated by ^C

You typed the CTRL/C signal to interrupt a graphics routine.

MINC-F-Histogram arrays must contain at least 4 elements

Book 6, see: AIN_HIST, PST_HIST, TIME_HIST

MINC-F-Illegal graph number

Book 4, see: GRAPH, GRID, ERASE_GRAPH, HLINE, LABEL, MAP_TO_TEXT, POINT, SHADE, VIEW, WINDOW REGION, BARGRAPH

MINC-F-Incomplete command; COP requires 2 file names; TYP requires at least one

Book 3, see: COPY

MINC-F-Index array is not present

Book 4, see: GRAPH

MINC-F-Indexing not allowed in strip-chart mode

Book 4, see: GRAPH

MINC-F-Instrument time limit exceeded

Book 5, see: RECEIVE, SERIAL_POLL

MINC-F-Invalid argument

Book 5, see: ALL_INSTR_CLEAR, DISABLE_ALL_PAR_POLL, DISABLE_REMOTE, ENABLE_PAR_POLL, ENABLE_REMOTE,

IEEE_BUS_CLEAR, INSTR_TIME_LIMIT, LOCAL_LOCKOUT,
PAR_POLL, RECEIVE, SEND, SEND_FRAGMENT, SERIAL_POLL,
SET_TERMINATORS, SRQ_SUBROUTINE, TEST_LISTENERS,
TEST_REMOTE, TEST_SRQ, TRANSFER

MINC-F-Invalid BCD value specified in argument xx
Book 6, see: MAKE_NUMBER

MINC-F-Invalid character or duplicate modes requested
Book 6, see: Error Detection

MINC-F-Invalid command; use only 2 file names
Book 3, see: COPY, TYPE, DIR, INI

MINC-F-Invalid data type for argument xx
Book 6, see: Error Detection

MINC-F-Invalid file name(s)
Book 3, see: APPEND, DIRECTORY, NEW, RENAME, SAVE

MINC-F-Invalid instrument address
Book 5, see: DISABLE_PAR_POLL, ENABLE_PAR_POLL,
INSTR_CLEAR, LOCAL_INSTR, RECEIVE, SEND,
SEND_FRAGMENT, SERIAL_POLL, TEST_LISTENERS, TRANSFER,
TRIGGER_INSTR

MINC-F-Invalid operation; mixing numbers and strings
Book 3, see: Assignment statement, DEF

MINC-F-Invalid or conflicting options requested
Book 4, see: BOX, CHAR_MODE, DISPLAY_MODE, DUAL_MOVE,
ERASE_GRAPH, ERASE_TEXT, GRAPH, BARGRAPH, WIDE_LINE,
HTEXT, VTEXT, LIGHTS, POINT, PUT_SYMBOL, REGION, SHADE,
TEXT_LINE,
Book 6, see: AIN, AIN_HIST, AIN_SUM, AOUT, CIN, COUT, DIN,
MAKE_TIME, PST_HIST, SCHEDULE, START_TIME, TERMINATE,
TIME_HIST

MINC-F-Invalid PRINT USING format or syntax
Book 2, see: PRINT USING Statement Error Conditions
Book 3, see: PRINT USING

MINC-F-I/O error; unable to check volume owner
Book 3, see: NAME, SAVE

MINC-F-Line is longer than 132 characters
The line is ignored; break the line into two or more lines. Or, if reading from a
file, make sure the file contains only legal BASIC program lines.

MINC-F-Line is too long to translate
The line is ignored; break the line into two or more lines. Or, if reading from a
file, make sure the file contains only legal BASIC program lines.

MINC SYSTEM INDEX

MINC-F-Line must have different endpoints
Book 4, see: TEXT_LINE

MINC-F-Listener is not on the bus
Book 5, see: ALL_INSTR_CLEAR, DISABLE_ALL_PAR_POLL,
DISABLE_PAR_POLL, ENABLE_PAR_POLL, INSTR_CLEAR,
LOCAL_INSTR, LOCAL_LOCKOUT, RECEIVE, SEND,
SEND_FRAGMENT, SERIAL_POLL, TEST_LISTENERS, TRANSFER,
TRIGGER_INSTR

MINC-F-Missing argument no. xx is required
Book 6, see: Error Detection

MINC-F-More than 2048 points requested
Book 6, see: FFT

MINC-F-MOVE and Brand cannot be specified together
Book 4, see: GRAPH, POINT

MINC-F-MOVE option must be selected if X argument is omitted
Book 4, see: POINT

MINC-F-MOVE option not allowed if other graph is in use
Book 4, see: GRAPH, POINT

MINC-F-MOVE option must be specified if MOVE specified previously
Book 4, see: GRAPH, POINT

MINC-F-MOVE option must be specified to specify UNITS
Book 4, see: POINT

MINC-F-Must specify clock operating mode
Book 6, see: MAKE_TIME

MINC-F-Need OPEN statement for file channel
Book 3, see: CLOSE, INPUT, LINPUT, OPEN, PRINT, PRINT USING,
RESTORE/RESET

MINC-F-No DEF statement for function named
Book 2, see: User-Defined Functions
Book 3, see: DEF

MINC-F-No DIM or COMMON description for array used
Book 3, see: Arrays

MINC-F-No autogain channels permitted
Book 6, see: AIN, AIN_HIST, AIN_SUM

MINC-F-No corresponding FOR statement for NEXT
Book 2, see: Nested FOR Loops
Book 3, see: FOR, NEXT

MINC-F-No NEXT statement terminates FOR loop
Book 3, see: FOR, NEXT

MINC-F-No. of channels exceeds length of integer channel array
Book 6, see: AIN, AIN_SUM, AOUT

MINC-F-No. of channels must match size of gain array
Book 6, see: SET_GAIN

MINC-F-No suitable free space on volume for file
Directory may be full; try collect. If necessary, delete some files and try collect again.

MINC-F-No workspace available for the string specified
Book 6, see: CIN, TEST_GAIN

MINC-F-Not enough space for the string
Book 5, see: RECEIVE

MINC-F-Notify DIGITAL: FFT argument failure
Book 6, see: FFT

MINC-F-Notify DIGITAL: Internal error trap
Book 6, see: Error Detection

MINC-F-Notify DIGITAL: Mark time failure
Book 6, see: Error Detection

MINC-F-Notify DIGITAL: Memory pool exhausted
Book 6, see: Error Detection

MINC-F-Notify DIGITAL: Protection failure
Book 6, see: Error Detection

MINC-F-Number of indices is outside range 0-10
Book 4, see: GRAPH

MINC-F-Number of indices is too large for specified array
Book 4, see: GRAPH

MINC-F-Number of points requested must be positive
Book 6, see: POWER

MINC-F-Number of points must be a power of 2
Book 6, see: FFT

MINC-F-Only one graph number may be in use
Book 4, see: FIND_POINT

MINC-F-Only one symbol may be printed at a time
Book 4, see: PUT_SYMBOL

MINC SYSTEM INDEX

MINC-F-OPEN fails; file channel already open
Book 3, see: OPEN

MINC-F-OPEN fails; workspace too full for another channel
Book 3, see: OPEN

MINC-F-OPEN statement for file channel prohibits transfer
Book 3, see: OPEN, RESTORE/RESET

MINC-F-Outer FOR loop is using control variable
Book 3, see: FOR, NEXT

MINC-F-Output file name already in use;
do you want to erase its current contents (Y or N)?
Book 3, see COPY

MINC-F-Parentheses nested too deeply or too many user functions
Break the statement into several simpler ones.

MINC-F-Previous routine is already using the module requested
Book 6, see: Error Detection, DIN

MINC-F-Previously plotted point not found
Book 4, see: GRAPH

MINC-F-Previously scheduled event pending. No new request
Book 6, see: SCHEDULE

MINC-F-Program does not have statement number specified
Book 3, see: CHAIN, GOSUB, GO TO, ON

MINC-F-Program too large; workspace overfills
Book 3, see: APPEND, CHAIN, COMMON

MINC-F-Quotes around string do not match or end quote missing
Book 2, see: String Literals

MINC-F-RESEQ has an invalid statement number or interval
Book 3, see: RESER

MINC-F-Reached RETURN without executing a GOSUB statement
Book 3, see: GOSUB, ON, RETURN

MINC-F-Relative difference in window values must be greater than 1.0E-04
Book 4, see: WINDOW

MINC-F-Schmitt trigger xx is already active. No new request
Book 6, see: SCHMITT

MINC-F-Schmitt trigger must be 1 or 2
Book 6, see: SCHMITT

MINC-F-Service subroutine request pending. Cannot use CONTINUE
Book 6, see: CONTINUE

MINC-F-Set front panel switch to P mode for channel xx requested
Book 6, see: SET_GAIN

MINC-F-Single strip-chart mode cannot be on when DUAL_MOVE is called
Book 4, see: DUAL_MOVE

MINC-F-Sorry; the statement is invalid in immediate mode
Not all statements are valid in immediate mode; include the statement in a short program and run the program.

MINC-F-Specified corners are not diagonally opposite
Book 4, see: BOX

MINC-F-Specified number not convertible to text coordinate
Book 4, see: MAP_TO_TEXT

MINC-F-Specified options incompatible with moving graphs
Book 4, see: GRAPH, ERASE_GRAPH

MINC-F-Specified or default volume does not have file named
Book 2, see: Running Programs
Book 3, see: APPEND, CHAIN, KILL, NAME, OPEN, REPLACE, RUN/RUNNH, UNSAVE

MINC-F-Specified row or Column not in graphic region
Book 4, see: MAP_TO_GRAPH

MINC-F-Specify device only; no filename or file type is allowed
Book 3, see: VERIFY

MINC-F-Specify only one file name
Book 3, see: VERIFY

MINC-F-Specify only one region, please
Book 4, see: REGION

MINC-F-START_TIME statement must precede the time request
Book 6, see: GET_TIME

MINC-F-String is longer than 255 characters
Book 3, see: Assignment

MINC-F-Stripchart modes must be off when this routine is called
Book 4, see: FIND_POINT

MINC-F-SUB creates an invalid statement or has a syntax error
Book 2, see: The Substitute Command
Book 3, see: SUB

MINC SYSTEM INDEX

MINC-F-Subroutine xx; Clock too fast for system to respond
Book 6, see: CONTINUE

MINC-F-Subroutine xx; Data lost—transfer rate too high
Book 6, see: CONTINUE

MINC-F-Subroutine xx; Value exceeds valid range for argument
Book 6, see: CONTINUE

MINC-F-Syntax error; cannot translate the statement
Book 3, see: APPEND, Arithmetic, DIM, LINPUT, RUN/RUNNH

MINC-F-System does not contain the module requested
Book 6, see: Error Detection

MINC-F-The Text option must be specified by itself
Book 4, see: ERASE_GRAPH

MINC-F-Time string format must be hh:mm:ss
Book 6, see: PAUSE, SCHEDULE

MINC-F-Too few values for INPUT or READ variables
Book 2, see: Checking for the End of the Input File
Book 3, see: DATA, INPUT, LINPUT, READ

MINC-F-Too many arguments in statement
Book 6, see: Error Detection

MINC-F-Too many response requests pending
Book 6, see: Error Detection

MINC-F-Too many transfers in progress simultaneously
Book 6, see: AIN

MINC-F-Total number of arrays and variables in COMMON exceeds 255
Book 3, see: COMMON

MINC-F-Use another file type; SYS, SAV, COM, and BAD are protected
Book 3, see: Protected File Types, UNSAVE

MINC-F-Use array element instead of array for argument xx
Book 6, see: CIN, COUT, TEST_GAIN

MINC-F-Value exceeds valid range for argument
Book 6, see: AOUT, WAIT_FOR_DATA

MINC-F-Value exceeds BCD range for argument xx
Book 6, see: MAKE_BCD

MINC-F-Value of argument xx exceeds valid range
Book 4, see: GRAPH, DUAL_MOVE, ERASE_TEXT, HLINE, VLINE
Book 6, see: AIN_HIST, PAUSE, PST_HIST SCAN_BIT, SCHEDULE,

SET_BIT, SET_GAIN, SET_LINE, TEST_BIT TEST_LINE,
TIME_HIST

MINC-F-Value of control expression is out of range
Book 2, see: ON/GO TO Statements
Book 3, see: ON

MINC-F-Value of FILESIZE expression too large or less than -1
Book 3, see: OPEN

MINC-F-Variable name required for argument xx
Book 4, see: FIND_POINT, GET_CURSOR, MAP_TO_GRAPH,
MAP_TO_TEXT, Error Detection.

MINC-F-Width + Distance must be less than 512
Book 4, see: WIDE_LINE

MINC-F-Workspace contents remain unchanged
Not enough memory available to store all the strings used in the program; re-
duce the size of the BASIC program.
Book 3, see: EXTRA_SPACE, NORMAL_SPACE

MINC-F-X value must be greater than zero when Distance is selected
Book 4, see: DUAL_MOVE

MINC-F-X value must be less than 512 when Distance is selected
Book 4, see: DUAL_MOVE

MINC-F-Zero is illegal as a ROLL_AREA argument
Book 4, see: ROLL_AREA

MINC-W-Attempt to find square root of a negative value
Book 3, see: SQR

MINC-W-Dividing by zero
Book 2, see: Multiplication, Division
Book 3, see: Arithmetic

MINC-W-Enter new value. Old value did not match INPUT variable
Book 3, see: INPUT

MINC-W-Extra values from keyboard or file ignored
Book 3, see: INPUT

MINC-W-Invalid exponential expression
The program tried to compute the value A^B where $A < 0$ and B was not an
integer or $B > 256$. BASIC substitutes a value or zero for the result.

MINC-W-LOG or LOG10 expression less than or equal to 0
Book 3, see: LOG, LOG10

MINC-W-Same instrument specified as talker and listener
Book 5, see: RECEIVE, TRANSFER

MINC SYSTEM INDEX

MINC-W-SRQ subroutine cancelled because no serial poll done
Book 5, see: SRQ_SUBROUTINE

MINC-W-SRQ subroutine has been cancelled
Book 5, see: SRQ_SUBROUTINE

MINC-W-Value of integer expression not in range -32768 to +32767
Book 3, see: Arithmetic, Assignment statement

MINC-W-Value of real expression is too large
Book 3, see: Arithmetic, Assignment statement, EXP, MINC-W-value of real
expression is too small
Book 3, see: Arithmetic, Assignment Statement, EXP, ATN

MON ERROR MESSAGES

MON-F-Bad fetch
Indicates serious disk corruption; try a new diskette. If the problems persist,
notify the MINC Product Service Center.

MON-F-Directory I/O error
Book 3, see: COPY

MON-F-Directory overflow
Collect and try again; if condition persists, delete some files and collect again.

MON-F-Overlay error
Indicates serious disk corruption; try a new diskette. If the problems persist,
notify the MINC Product Service Center.

MON-F-Power fail halt
Restart system.

MON-F-Swap error
Indicates serious disk corruption; try a new diskette. If the problems persist,
notify the MINC Product Service Center.

MON-F-System halt
Restart system.

MON-F-System read failure halt
Book 3, see: Starting Procedures

MON-F-Trap to 10
Possible caused by static electricity; try again. If the condition persists, notify
the MINC Product Service Center.

MON-F-Trap to 4
Possible caused by static electricity; try again. If the condition persists, notify
the MINC Product Service Center.

**UTILITY ERROR
MESSAGES**

UTILITY-F-Bad directory block
Diskette not usable; try initializing diskette to recover it. If condition persists,
discard diskette.

UTILITY-F-Copies of the following files may be faulty: xxxx
Book 3, see: DUPLICATE

UTILITY-F-Device full
Book 3, see: DUPLICATE

UTILITY-F-Device SY may not be initialized
Book 3, see: INITIALIZE

UTILITY-F-Directory full
Collect and try again; if condition persists, delete some files and collect again.

UTILITY-F-Disk unusable, too many bad blocks
Diskette not usable; try initializing diskette to recover it. If condition persists,
discard diskette.

UTILITY-F-Error in formatting disk
Diskette not usable; try initializing diskette to recover it. If condition persists,
discard diskette.

UTILITY-F-Error in system area
Diskette not usable; try initializing diskette to recover it. If condition persists,
discard diskette.

UTILITY-F-Error reading directory
Book 3, see: COLLECT, VERIFY

UTILITY-F-Error writing directory
Book 3, see: INITIALIZE

UTILITY-F-File not found
Book 3, see: COPY, TYPE

UTILITY-F-Illegal command
Book 3, see: VERIFY

UTILITY-F-Illegal device
Book 3, see: COLLECT

UTILITY-F-Illegal directory
Book 3, see: DUPLICATE

UTILITY-F-Input truncated at twelve characters
Book 3, see: INITIALIZE

UTILITY-F-No swap file on boot volume
Put a valid MINC diskette in drive 0 and restart the system.

MINC SYSTEM INDEX

UTILITY-F-No volume id
Book 3, see: DUPLICATE

UTILITY-F-Not enough usable space on volume
Book 3, see: COPY

UTILITY-F-Read error
Book 3, see: COLLECT, COPY, INITIALIZE

UTILITY-F-Target volume must be newly initialized
Book 2, Duplicating a Volume
Book 3, see: DUPLICATE

UTILITY-F-Unable to initialize volume with owner name 'DIGITAL'
Book 3, see: INITIALIZE

UTILITY-F-Unable to specify 'DIGITAL' as owner name
Book 3, see: INITIALIZE

UTILITY-F-Uninitialized volume
Book 3, see: COLLECT

UTILITY-F-Volume owner name may not be 'DIGITAL'
Book 3, see: COPY

UTILITY-F-Write error
Book 3, see: COPY

PART 2
SYSTEM
INDEX

INTRODUCTION

This part of Book 8 contains the MINC System Index, formed by merging the indexes of Books 2 through 7.

If you are uncertain in which book to look up a term, you can consult this index. Each entry identifies both the book and page reference. For example:

Bad blocks, Book 2: 69-70

The above entry indicates that a discussion of bad blocks occurs in Book 2 on pages 69 through 70.

MINC SYSTEM INDEX

- @ character, Book 3: 81
- A/D channel allocation
 - potential problems, Book 7: 17, 21
- A/D channel gain, Book 6: 198
- A/D channels
 - maximum expansion, Book 7: 17
- A/D conversion
 - applicable BASIC routines, Book 7: 7
 - initiating conversions, Book 7: 10
- A/D conversion routines
 - control settings and connections, Book 7: 26-27
- A/D conversion, Book 6: 2
- A/D converter
 - full scale values, Book 6: 83
- A/D converter
 - channel 0-3 input selection, Book 7: 25-26
 - channel expansion, Book 7: 9
 - connector block labeling, Book 7: 10
 - front panel controls, Book 7: 8
 - general description, Book 7: 7
 - mode indicators (lines 8-15), Book 7: 9
 - single-ended selector strap, Book 7: 24-25
- A/D group
 - analog input connections, Book 7: 22
- A6AVER.BAS example program, Book 6: 58
- A6INT.BAS example program, Book 6: 56
- A6SAVE.BAS example program, Book 6: 61
- A6SCOP.BAS example program, Book 6: 71
- ABORT system function, Book 3: 7
- ABS function, Book 2: 118
 - form of, Book 2: 118
- ABS function, Book 3: 8
 - related to SGN, Book 3: 194
- Absolute accuracy, Book 7: 133
- ABSOLUTE mode designator, Book 6: 175
- Absolute value, Book 3: 8
- Acceptor handshake, Book 5: 26
